

# GENERATOR THEATER

April 2019

To whom it may concern:

Generator Theater Company is a huge fan of the New JACC. We are an ensemble-driven, project-driven theater and arts organization in Juneau, established in 2007. We know first-hand the joys and challenges of making rigorous artistic work in Juneau, including the ongoing challenge of securing technical support and adequate performance space. The Juneau Arts & Humanities Council has been a consistent bedrock for Generator since our founding, and we fully support their efforts—on behalf of all of us in Juneau—to make the New JACC a reality.

The spirit behind the vision for this facility—to serve a strongly-felt community need; to uphold a high artistic standard for the excellent work created by Juneau artists; and to reach beyond what may at first seem impossible in our community—aligns exactly with the spirit that founded and sustains Generator.

We confirm that we will engage the space regularly and in unique ways, for future Generator projects. Please notify us of any other ways we may support the New JACC.

Sincerely,

Ryan Conarro  
Artistic Director  
Generator Theater
